# EARPIECE

The C-Ring soft plastic earpiece offers comfort and elegance for prolonged use throughout the day.

The MA-29 model is designed to be worn on both ears, ensuring hygiene.

The integrated PTT (Push-To-Talk) button facilitates communication even when the radio is not immediately accessible.

The high-sensitivity microphone with noise-canceling filter and the HD speaker ensure clear and strong communication even in noisy environments, while the braided fiber cable prevents tangling.

## Key points:

- Elegant design
- Durable material, ideal for prolonged use
- Usable on both ears
- Anti-tangle braided fiber cable
- High-quality microphone and speaker, designed to meet the needs of professional users, with top-tier components
