

# MIDLAND G9 Pro

## Excellent performance through the dual button for transmission with high or low power

- High / low power transmissions with dual transmit button:

Easily decide when to use the high power for transmission or not. This saves battery power and increases the operation time.

- New emergency feature:

The emergency call button allows you to reach all radios within range, even if they are set to another channels.

- Out of range function:

Press any key to check if other radios are in range.
